

SUPPLY LIST, MILE-A-MINUTE WORKSHOP

By Sally Miller

Join Sally Miller in quilting zen as we go “A Mile a Minute” in this scrap-intensive workshop. Inspired by an article by Carol A. Coski in the Winter 2000 American Quilter Magazine, we will examine and practice perhaps the quickest, most scrap-clearing method of making and designing quilt tops ever known! Patterns will be suggested but not mandated, as there are so many directions you can go with this “made fabric.” Sally will share basic instructions for Mile-a-Minute, along with her personal tips and tricks for both piecing and quilting.

Basic sewing and quilting supplies and a functioning straight stitch machine are required. Suggested fabric is your bag of scraps too small to refold and return to your stash and too large to throw out. Additional fabric reading as solid is suggested for borders and sashing or to complete a designed block.

SUPPLY LIST

Basic sewing supplies and functioning sewing machine

Fabric scraps

Piecing thread of any color

Solid or solid-reading fabric for borders, sashing or part of the quilt block. Any will match!
