

Trish Neilson

This is from the PVQA workshop given by Tina Curran in December 2020. Learned several new techniques including working with invisible thread. The problem with invisible thread is ... well ... it's invisible! Thanks to Kristie Shulman for getting me over the invisible thread hump! I decided to keep the quilting simple and just emphasized the sunlight rays with wavy lines. quilt

MICHELE ESTRIN-GELBLUM

This is to be donated to the CZU Fire Survivors event this weekend. It was truly a group effort. The pieces were cut by Gaby Litsky, the top pieced and binding done by Michele, the backing done by Kristie Shulman and it was quilted by Sara Roche. This quilt giveaway project has brought warmth and healing to so many who lost their homes in last year's fire.
